RESSOURCE COLLECTION BOX

360 SHADES

Our collection draws its inspiration from our poetic and artistic heritage and pays a tribute to nature and its incredible palette of colors and shades:

360 shades for an infinite range of colors.

From the softest shade to the most vibrant, immerse yourself in a world where each color is dreamed up in our design studio and developed by our in-house laboratory to offer you an outstanding selection and quality of shades.

FINISHES SAMPLES

To help you choose, Ressource provides samples of all interior and exterior finishes at the end of the folder.

Because the finish of a paint is just as important as its color. Matte, velvety, satin, or glossy, each finish reveals unique nuances, influences the perception of the color, and transforms the ambiance of a room. Touch, compare, and observe the color variations and level of gloss in natural light. Essential experience for choosing with confidence.

BRUSHED LIME PAINT BOX

77 SHADES

Beyond its unrivalled aesthetic and decorative aspect, Lime Paint allows the walls to breathe and regulates humidity in a room, offering a healthy indoor environment.

Brushed Lime Paint offers a very mineral, chalky rendering with a deep matte finish for a timeless, natural and harmonious result, thanks to the grain that emerges and gives body to the material.

BURNISHED LIME PAINT BOX

77 SHADES

Already popular in ancient Rome, Burnished Lime Paint lets play with light and matter, creating soft, subtle contrasts of shine.

PROTECTIONS SAMPLES

To help you choose, Ressource provides a few color samples with different protective coatings at the end of the folder.

All our samples of Burnished Lime Paint are applied with a coat of Wall Wax, but depending on your needs and the desired effect, there are three options available to you.

These samples allow you to understand the impact of each protective coating on the finish, color, and texture, and help you make an informed choice based on the desired style and technical constraints of the project.
